DWA_03.5 Knowledge Check_DWA3.2

_____

1. User story(ies) in Gherkin syntax for the "+" button.

Feature: As a user I want the number of the tally counter to increment by 1 when I press the "+" button so I can keep track of the final value

Scenario: User clicks "+" button
GIVEN: I am on the Tally Count App page
WHEN: I click the "+" button
THEN: The number displayed on the counter increases by 1

Scenario: User clicks anywhere outside "+" button
GIVEN: I am on the Tally Count App page
WHEN: I click somewhere on the page outside of the "+" button
THEN: The number displayed on the counter either stays the same, or decreases if "-" button pressed accidentally

_____

2. User story(ies) in Gherkin syntax for the "-" button.

Feature: As a user I want the number of the tally counter to decrement by 1 when I press the "-" button so I can keep track of the final value

Scenario: User clicks "-" button
GIVEN: I am on the Tally Count App page
WHEN: I click the "-" button
THEN: The number displayed on the counter decreases by 1

Scenario: User clicks anywhere outside "-" button
GIVEN: I am on the Tally Count App page
WHEN: I click somewhere on the page outside of the "-" button
THEN: The number displayed on the counter either stays the same, or increases if "+" button pressed accidentally
